Conic

**Features**

Conic is a refreshing, eye catching and exciting take on various conical forms used in both, contemporary and previously explored areas of soft seating over the decades. The tub chair, lounge chair, and chair with integral headrest, carry the same shared aesthetic, essentially in two sizes of conical, moulded foam shell. Bases are polished chrome wire forms, with the tub version being more upright to allow for meeting and dining use. Swivel base versions, of circular flat steel plate with a central column, add to the fun. Conic's shape and form provide excellent and inviting levels of comfort with an almost domestic appeal, complemented by a family of related low tables, for a myriad of uses and spaces.

**Finishes**

Wire frames are finished in polished chrome as standard with white plastic feet. Swivel pedestal disc bases are also finished in chrome as standard. Conic can be upholstered in a wide range of contract quality fabrics or leather, but these ideally require a degree of stretch.

**Design: Luke Pearson and Tom Lloyd**

Luke Pearson and Tom Lloyd who first met while studying Furniture Design and Industrial Design respectively, at London's prestigious Royal College of Art, did not form their multi award winning product and furniture design consultancy, until 1997, having first spent a number of years working independently of each other for other highly acclaimed design studios.
