Care Instructions <ul style="list-style-type: none">• Vacuum and wipe clean routinely with a microfibre cloth lightly dampened with cold water only.• Soak up spillages as soon as possible with an absorbent dry cloth to prevent staining.• Remove body fluids and extreme soiling immediately (within 15 minutes) with cold water then apply approved infection control protocol: Haz Tabs, Chlor Clean or ShieldPlus™ etc. As the concentration of bleach can vary greatly among proprietary brands we recommend these be avoided but in extreme circumstances 5% solution may be used. Remove product residues and then dry with a clean absorbent cloth.• Do not steam clean - heat seals in stains.• Do not tumble dry.• Do not dry clean.• Do not fully immerse in water.• Do not apply solvents, alcohol or any other chemical cleaners.	

- ① Antimicrobial ShieldPlus™ Protection permanently inhibits the broadest spectrum of microbes (even C diff spore) and prevents nasty odours.
- ② Stain Resistant - A C6 fluorocarbon technology combining effectiveness with environmental consideration.
- ③ Fabric - Comfortable but durable to suit the most extreme environments.
- ④ Waterproof film - Hydrostatic head test exceeds requirement of 1m.
- ⑤ Flame Retardant - Passes UK and most international contract FR standards.
