

Aldo

Design by John Tree

Built on the union of design simplicity and technical precision, Aldo delivers exceptional ergonomic comfort in a timeless everywhere collection. Designed to transition effortlessly across dining, café, and meeting spaces, Aldo chairs and stools harmonise with any interior

design aesthetic. Soft, rounded wood forms pair with high-gloss powder coated frames to create striking material contrast with a calm visual presence. Tubular steel legs attach seamlessly to the back with novisible fixings, while a graceful ribbon-shaped substructure frames the seat.

This flexible family of seating is a true testament to the power of nurturing the details. This is just the beginning for Aldo...
