

Rapt

Design by Jonathan Prestwich

Rapt exudes poise and offers a fresh alternative to the established norms of executive seating. It has been created to grace environments where key decisions are made, where success happens, where detail and conviction are imperative and where extraneous distractions need to be eliminated.

A simple automatic recline adjustment, together with the ability to regulate its height encourages movement that fosters creativity. This executive chair boasts luxury upholstery, twin needle stitch detail along its perimeter and clearly defined zones of support.

Dimensions

Design

Design by Jonathan Prestwich

In 2004 Prestwich set up his own studio in London and quickly established a reputation for simple elegant products. Since then he has collaborated with several highly respected international companies, winning multiple awards for his innovation.

Jonathan's wealth of experience is combined with a desire to make products for the next generation of users. Simple, elegant, innovative products which are influenced by nature and technology.
