The double-sided domed acoustic panel is the most adaptable and visually striking product within the Baudot range. With height adjustability and a dense concrete base with a small footprint, the Baudot Zero modules can be reconfigured to adapt to changing environments and activities.

Our team of talented in house designers is responsible for creating elegant, innovative furniture designs that not only look beautiful, but minimize the impact on the world around us. Constantly exploring new product trends and keeping up to date with the latest innovations in technology and materials, our design team creates world class designs of the highest quality.
Standard Features
(* - Selected models only)
- Foam construction
- Upholstered in acoustically tested fabrics
- Steel stem
- Cornish Granite concrete cast base
- Height adjustable
- Felt base pads

Optional Features
- Two-tone upholstery

Baudot Strings provide an attractive alternative solution to screening whilst noticeably improving the acoustics within a space. Constructed from extruded Aluminium poles surrounded by foam and fabric, Strings provide an excellent surface to absorb and diffuse sound waves. With 24 fabric colours and various heights available, interior designers can create an arrangement to fit in any environment.
